Enc. No.

MYSORE CITY MUNICIPAL PRESIDENT'S OFFICE,

Dated 21st November 1899.

To

The Secretary to the Government
of Mysore.

Revenue and General Departments

SIR,

With reference to the Dewans office
(1) Official Memorandum no: 4006/27.37-97 dated 21st
September 1898 inviting attention to subject
no: 40 of Dasara Representative Assembly
proceedings of October 1897 and requesting to
report what improvements have been effected
for the diversion of the sewage water from the
Subbarayanakutta in the City of Mysore, and
(2) my letter no: 249/2614 dated 30th September 1898 in-
forming you that the above work had
been undertaken by the Sanitary Depart-
ment and it was in progress &c. I have
the honor to state that the pipes were laid

Early

only to a certain distance beyond Vub-
brayanakatta and there the Sewage water
empties itself into and stagnate in the
newly constructed rough stone drain
running upto Doddatere feeder bridge
near the Police Station by the side of the
Chamaraj Road. The diversion instead
of improving the sanitation is a source
of great nuisance to the houses by the side
of which the drain passes

The Sanitary Department Ori-
ginally proposed to take the Sewage
water of Western Extension and portion
of Krishnaraj mohalla by means of pipes
to the Poorniah's channel near Palace
Elephant Stables, but the work was
given up for reasons unknown. On
Sanitary grounds, the completion of this
work is very urgent as Plague has

has taken root in that portion of the City and that there is no possiblity of its abating soon. If the Sanitary Superintending Engineer and his Establishment cannot carry out the work to completion owing to urgent work elsewhere, I beg to Sugget that it may be entrusted to the Municipal Agency with funds as estimated for.

I have the honor to be,
Sir,
your most obedient Servant
Thanjavur Municipality
For President
